

OUR BUSINESS PROFILE

Since its inception in 2017 as a partnership firm, Innovative Techno Engineering is devoted its client's desire and satisfaction. We have started our business as a manufacturer of Fiber Re-enforced Plastic (FRP) products. We supplied FRP Products to the costal cyclone centers to LGED programs of Bangladesh. Simultaneously, we have expanded our business to building Interior and exterior design fields. Now we are providing creative full-solutions of architectural Interior/Exterior Design for Offices, Apartments, Showrooms, Industrial & commercial building, Hospital, Healthcare and Beautification projects. We have also vast experienced in the supply of customized Wooden, MS & SS Metal Furniture and General/Medical equipment.

Mission:

- **Budget-Friendly Solutions:** - Our commitment is to provide outstanding design solutions that meet the client's needs while staying within your budget. We offer cost-effective alternatives that enhance value and quality for each project.
- **Flawless Execution:** - Our meticulous focus on detail and dedication to perfection guarantee the flawless execution of every aspect of client's project, resulting in spaces that are not only stunning but also impeccable.
